All-in-One M Series

SATPRO M系列船载KU波段卫星通信系统采用

All-in-One高度集成理念，将功放、控制器和Modem

全部集成在天线罩内，整机采用最新的三轴结构

设计，整机重量轻，体积小，功耗低，非常适合

安装在船载通信系统，是船载通信系统的首选

方案。

The SATPRO M series Ku-band satellite communication system is designed with All-in-One highly integrated structure that integrates the power amplifier, controller and modem into a single structure with economic and compact design. The system has a small size, low power consumption and is suitable for installation on ships. It is the first choice for shipborne communication systems.

■ 控制器、卫星路由器、功放高度集成

Highly Integrated PA, Modem and BUC

■ 内置NS

Built-in NS

■ 模块化设计

Modular Design

■ 简化系统结构

Simplified System Structure

■ 易操作

Easy Operation

■ 远程数据监控

Remote Data Monitoring
